CURRENT RESEARCH PROJECT

- 2020 – 2024 Research Grant from the National Research, Development and Innovation Office (NKFIH), K 135038
 Project title: *Prosodic structure and sentence types in large speech databases supported by deep learning techniques*
 Role: participant
- 2015 – 2021 Research Grant from the National Research, Development and Innovation Office (NKFIH), K 115922
 Project title: *The grammar and pragmatics of interrogatives and their (special) uses*
 Role: PI

FORMER RESEARCH PROJECTS

- 2014 – 2017 Research Grant from the Alexander von Humboldt Foundation in the framework of its Institutional Partnership Program
 Partner Institution: University of Bielefeld (Marcus Kracht)
 Project title: *Grammar and Pragmatics: Sentence Types and their Combinatorics between Logic and Prosody ('Grammatik und Pragmatik: Satztypen und ihre Verknüpfungen zwischen Logik und Prosodie')*
 Role: PI on the Hungarian side
 Organisation of a project workshop in Budapest: 2-3 October 2015.

- 2012 – 2016 Research grant from the Hungarian Research Development Fund (OTKA) NK 100 804
Project title: *Comprehensive Grammar Resources: Hungarian*
Role: participant
PI: István Kenesei
- 2011 – 2015 Research grant from the Hungarian Research Development Fund (OTKA) 84217
Project title: *Division of Labour in the Grammar of Scope. The interaction of syntax with semantics, information structure and prosody in the generation of scope effects*
Role: participant
PI: Balázs Surányi
- 2011 – 2012 Project title: *EUROGR@MM*, Coordinated by IDS Mannheim
Role: participant
PI: Gisela Zifonun
- 2007 – 2011 Research grant from the Hungarian Research Development Fund (OTKA) F 68139
Project title: *Interpretation, discourse structure and intonation*
Role: PI
- 2010 Hungarian State Eötvös Scholarship (3 months)
Meaning beyond truth-conditions: modal particles in Hungarian exclamatives
Place of research: Zentrum für Allgemeine Sprachwissenschaft, Typologie, und Universalienforschung (ZAS), Berlin
Sponsor: Hans-Martin Gärtner
- 2009 – 2010 Research grant from the Deutsche Forschungsgemeinschaft (DFG), Category: Initiierung und Intensivierung bilateraler Kooperationen
Project Title: *Modalpartikeln und Satztypen im Sprachvergleich Deutsch-Ungarisch*
Role: coordinator of the Hungarian cooperating team
PI: Hans-Martin Gärtner (ZAS Berlin)
- 2005 – 2006 Grant awarded by the “Consortium of the Faculties of Arts of Hungarian Universities”, to write a textbook entitled *Formal Semantics in Hungarian*
Role: PI
Participants: László Kálmán, Márta Maleczki, Károly Varasdi

- 2001 – 2005 Research grant from the Hungarian Research Development Fund (OTKA) T 042687
Project title: A Structural Grammar of Hungarian IV: The structure of the lexicon
 Role: participant
 PI: Ferenc Kiefer
- 2004 – 2005 Research grant from the Alexander von Humboldt-Stiftung
Project title: The semantics and pragmatics of contrastive topics from a cross-linguistic point of view
 Place of residence during the grant period: Zentrum for Allgemeine Sprachwissenschaft, Typologie, und Universalienforschung (ZAS), Berlin
 Sponsor: Manfred Krifka
- 2002 – 2003 Course Development Competition Grant from the Curriculum Research Center at Central European University,
 Aim of project: to develop courses in *Algebraic Semantics* and *Laboratory Phonology*
 Role: participant
 PI: Miklós Törkenczy
- 2002 – 2004 NOW-OTKA Research Grant (N 37276)
Project title: Syntax, semantics and phonology of the left periphery
 Role: participant
 PIs: Johan Rooryck and István Kenesei
- 2000 – 2003 János Bolyai Research Grant (awarded by the Hungarian Academy of Sciences)
Project title: A Comprehensive Study of Quantifiers in Hungarian in a Generalized Quantifier Framework (individual grant)
- 1998 – 2000 Research Support Scheme Research Grant (Awarded by the Central European University, Budapest) (No. 320/1998)
Project title: A Computational Model for Processing Lexical Information (COMPLIN)
 Role: participant
 PI: Zoltán Bánréti
- 1999 – 2001 Research grant from the Hungarian Research Development Fund (OTKA) T 029590
Project title: The properties of rules, principles, and models applicable to natural languages – a complex approach
 Role: participant
 PI: Márta Maleczki
